IFoU Young Ambassador Webinars 2022

DIVING INTO UNCHARTED URBANISM

INTERNATIONAL FORUM ON URBANISM

YA Young Ambassador Initiative

The International Forum on Urbanism, IFoU (www.ifou.org) is a network of universities, research institutes and knowledge centres across Asia, Europe and South America, with the task of strengthening international collaboration of research and practice in the field of urbanism.

Focusing on the fast-changing built environment and emerging urban challenges, the IFoU Young Ambassador is a new platform that aims to promote exchange and collaboration among early-career academics and practitioners of urbanism as well as students of related fields within and beyond IFoU network.

The webinar series - Diving into Uncharted Urbanism - is the second iteration of the IFoU Young Ambassador initiative to start various dialogues among IFoU distinguished fellows and young researchers and practitioners, discussing and debating on different problems confronting our cities today.

Thu 19.05. 16:00 - 18:00 GMT+8

Stakeholder Interactions for Better Regional Development
